ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: MANUFACTURE OF TOROIDAL TRANSFORMERS

(57) Abstract: The present invention relates to  
a novel and efficient method for manufacture of  
toroidal transformers, a bobbin for manufacture of  
toroidal transformers and a system for performing  
said method for manufacture of toroidal  
transformers. Said method for manufacture of  
toroidal transformers has properties superior for  
automated mass production and comprises the  
steps of arranging a coil around the periphery of at  
least one hollow bobbin of elongated shape and of  
flexible material; bending said at least one bobbin  
together with said coil, so that the bobbin ends  
are brought towards each other, one of said bobbin  
ends defining an opening; and feeding a ribbon of  
magnetic material through said opening, so that  
said ribbon is being wound a required amount of  
tightly packed winding turns inside said bobbin  
until essentially the whole interior cavity of said  
bobbin is filled, said ribbon thereby forming a  
core.
